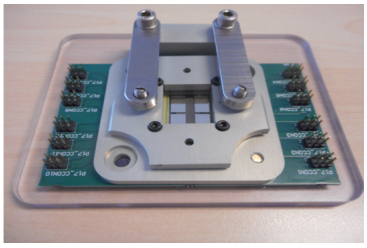
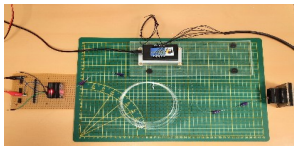
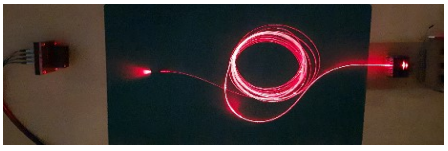
Solutions for Plastic Optical Fiber systems

Systems, cable assemblies and sensors

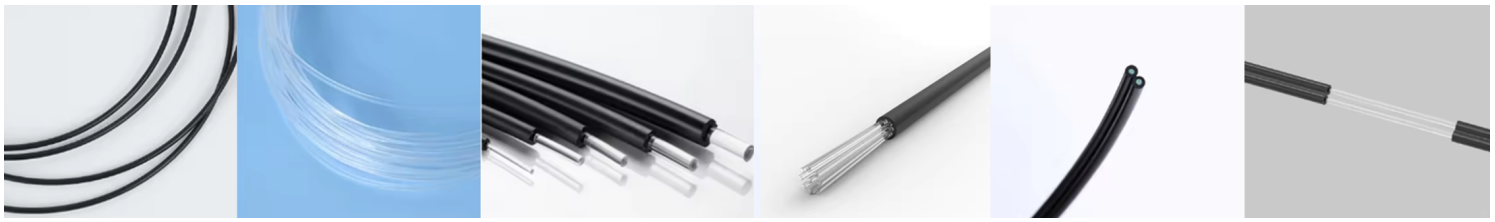






QUICK FACTS

- Simplex, Duplex & Multi-channel Cable assemblies.
- Sensor assemblies.
- Customer specific packaging of active components (Tx/Rx).
- Hybrid solutions, POF with copper, flex OCB's or Foils
- System integration
- Custom Specific solutions



PRODUCT APPLICATION

- Industrial controls
- Test & Measurement
- Healthcare & medical equipment
- In-transport communication.
- In-house communication.
- In-Network communication
- Drones and authonomous operating equipment.
- Explosion safe installations

FEATURES AND BENEFITS

- SteeRED Offers a Team with over 100 years experience for the best match with your requirements.
- Local engineering and manufacturing for quick turnaround.
- Higher mix, lower volume market.
- Independent partner, no brand ties
