Fiber Optic interconnect solutions

Full range of connectors & termination technologies.

QUICK FACTS

-- Custom and standard solutions.
· Glass, multimode and signal mode and POF.
· Wide range of connector solutions
· Range of manufacturing processes including polishing and fusion welding.
-High end equipment for production and testing/measuring.
· Custom boots, heatshrink, labeling and cable configurations.

PRODUCT APPLICATION

- Aerospace
- Test & Measurement
- Military
- Communications
- Instruments
- Other

FEATURES & BENEFITS

- One source for all Fiber solutions.
- Custom solutions on technology, quality and logistics reduces your total cost of ownership.
- Full service supplier; engineer to supply and service.
- Working with the best brands in connectors and cable to bring you the best possible solution.
